

SHAW CABLESYSTEMS G.P.
Single Family Home Servicing Requirements

- **The Customer Service Enclosures are to be placed on the outside of the home alongside the power meter. They are provided at no cost to the home owner and are available from Shaw Cable office at 200-208 Beacon Hill Dr.**
- **1 ¼ inch PVC Stand Pipe to be installed from the base of the Customer Service Enclosure to below ground level.**
- **Our contractor needs to have the stand pipe and service enclosure installed or its future location clearly marked. This should be located no closer than 12 inches to other utilities.**
- **Each of the homes cable outlets should be individually run back to the Customer Service Enclosure. A #10 ground wire bonded to the electrical ground needs to be placed with the pre-wired outlets.**
- **For further information please call Shaw's Customer Service 714-5355**
